IN CELEBRATION

50 years of the Voting Rights Act

Message from Secretary of State Kim Wyman

I'm pleased to present you the 2015 General Election Voters' Pamphlet.

This important election features local races and measures that will have a significant impact on you and our local communities. Voters will determine the outcome of local measures and elect officials to serve on city councils, school boards, fire, and port commissions.

This year marks the 50th anniversary of the Voting Rights Act, the landmark federal law that prohibits racial discrimination in voting in America. On the back cover, you'll see the winning artwork from this year's Kids' Art Contest. The theme, "Every Vote is Equal," celebrated 50 years of this key legislation.

The Voters' Pamphlet cover features the naturalization ceremony in Seattle on July 4. I was honored to again take part in this special event and watch as hundreds of people from over 80 nations proudly became American citizens. I was inspired to see many of these new citizens register to vote so they can have their voices heard and exercise this fundamental freedom cherished by so many of us.

If you are not a registered voter and want to vote in this fall's election, you have until October 26 to register at your county elections office.

You can have your voice heard and make a difference by voting in this fall's election. I encourage you to take a moment to read through the Voters' Pamphlet and other helpful information and then fill out your ballot and return it by November 3. Make an impact on your community and our state by voting this fall!

About the cover

The photo on the cover was taken by Secretary of State Kim Wyman at a July 4 naturalization ceremony in Seattle, in which Secretary Wyman participated. Hundreds of people from more than 80 nations became U.S. citizens and later registered to vote that day. This year marks the 50th anniversary of the federal Voting Rights Act that prohibits racial discrimination in voting. We're celebrating this major achievement in equality and the voice it gives all citizens.

Initiative Measure No.

1366

concerns state taxes and fees.

This measure would decrease the sales tax rate unless the legislature refers to voters a constitutional amendment requiring two-thirds legislative approval or voter approval to raise taxes, and legislative approval for fee increases.

Should this measure be enacted into law?

☐ Yes

☐ No

Explanatory Statement

Written by the Office of the Attorney General

The Law as it Presently Exists

Washington law charges a sales tax on most retail sales made in the state. Generally, a retail sale is the sale of goods or services, but there are certain exceptions defined by law. There are also certain goods and services that are exempt from the retail sales tax, such as most groceries, over the counter and prescription drugs, and newspapers. The state retail sales tax is currently 6.5% of the selling price on each retail sale. This rate does not include local sales taxes that may also be charged by cities, counties, and other taxing jurisdictions.

Another state law provides that most fees charged by the government are allowed only if they are approved by more than half of the members of each house of the legislature.

The Washington State Constitution states that no bill may become law unless it receives a yes vote by more than half of the members of each house of the legislature. The Washington State Supreme Court has explained that this voting requirement cannot be

changed by a regular law. This means that neither the legislature, nor the people through the initiative process, can pass a law that requires more votes in order for certain types of bills to pass. The only way to increase the number of votes needed for a bill to become a law is to amend the constitution.

The constitution can only be amended if two-thirds of the members of each house of the legislature vote to propose the amendment. The amendment must then be approved by a majority of the voters at the next general election.

The Effect of the Proposed Measure, if Approved

This measure would cut the state retail sales tax from 6.5% to 5.5% on April 15, 2016, unless the legislature first proposes a specific amendment to the state constitution. The proposed amendment must require that for any tax increase, either the voters approve the increase or two-thirds of the members of each house of the legislature approve the increase. It must also require the legislature to set the amount of any fee increases.

If the legislature proposes the constitutional amendment before April 15, 2016, then the state retail sales tax would stay at 6.5%.

If the legislature does not propose the constitutional amendment and the state retail sales tax is reduced to 5.5%, that would cut the amount of taxes that individuals and businesses pay for goods and services. It would also lower the State's revenue for government services.

The measure would also define "raises taxes" and "majority legislative approval for fee increases" as those phrases are used in state law.

Fiscal Impact Statement

Written by the Office of Financial Management
For more information visit www.ofm.wa.gov/ballot

Summary

If the Legislature does not refer a constitutional amendment to voters for consideration at the November 2016 general election, over the next six fiscal years, sales tax revenue for the state General Fund would decrease \$8 billion. Sales tax revenue for the state Performance Audit Account would decrease \$12.8 million. State business and occupation (B&O) tax revenue would increase \$39.9 million. Local tax revenue would increase \$226.1 million. State expenditures would be \$598,000. If an amendment is referred to voters, fiscal year 2017 state election expenditures would increase \$101,000. There would be an unknown increase in local government election expenditures.

General Assumptions

- The effective date of the initiative is December 3, 2015.
- Estimates use the state's fiscal year of July 1 through June 30. Fiscal year 2016 is July 1, 2015, to June 30, 2016.
- As the phrase is used in Section 3(2) of the initiative, "prior to April 15, 2016, refers to the ballot" means that the Legislature passes the constitutional amendment described in Section 3(2) of the initiative before April 15, 2016, and submits it to the voters for their consideration on the November 2016 general election ballot.

Analysis

The initiative presents the Legislature with a choice that leads to two possible and mutually exclusive scenarios. The Office of Financial Management (OFM) cannot predict how the Legislature will act. For the purposes of this fiscal impact statement, OFM describes the fiscal impact of each scenario.

Scenario 1

The Legislature does not refer a constitutional amendment to voters prior to April 15, 2016. On April 15, 2016, the state retail sales tax rate would decrease from 6.5 percent to 5.5 percent.

State and Local Government Revenue Assumptions

Changes in the state retail sales tax rate could affect the amount of goods consumers purchase, which would affect state and local tax revenue. The Department of Revenue (DOR) prepared the revenue estimates assuming a price elasticity of 0.99. Price elasticity is a method used to calculate the change in consumption of a good when price increases or decreases.

State Revenue

Reducing the state retail sales tax from 6.5 percent to 5.5 percent would decrease revenues deposited in two funds: the state General Fund and the state Performance Audit Account.

Table 1 provides estimates of the retail sales tax reductions over the next six fiscal years to the state General Fund. State revenues deposited in the state General Fund may be used for any government purpose such as education; social, health and environmental services; and other general government activities.

(See Table 1 on page 11.)

Table 2 provides estimates of the retail sales tax reductions over the next six fiscal years to the state Per-

formance Audit Account. State revenues deposited in the state Performance Audit Account are used by the Washington State Auditor to conduct comprehensive performance audits required under RCW 43.09.470.

(See Table 2 on page 11.)

Table 3 provides estimates of the increases in state B&O taxes deposited in the state General Fund over the next six fiscal years. The state B&O tax is a gross receipts tax. It is measured on the value of products, gross proceeds of sales or gross income of the business. Due to price elasticity, state B&O tax revenue could increase with the change in the state retail sales tax rate.

(See Table 3 on page 11.)

Local Government Revenue

Due to price elasticity, local B&O tax revenue and local retail sales tax revenue could increase with the change in the state retail sales tax rate. Table 4 provides estimates of the increased local revenues collected over the next six fiscal years.

(See Table 4 on page 11.)

State Expenditure Assumptions

- The effective date of the retail sales tax decrease is April 15, 2016.

State Expenditures

To implement a reduced retail sales tax rate that takes effect on April 15, 2016, DOR expenditures would increase an estimated \$598,000 over the first six fiscal years. Table 5 provides cost estimates by fiscal year, rounded to the nearest thousand.

(See Table 5 on page 11.)

The timing of the rate change and the number of businesses affected by the rate change contribute to DOR's costs. A change in the state retail sales tax rate would affect about 200,000 businesses that file monthly, quarterly or annual tax returns. These businesses collect retail sales tax from customers and then pass the sales tax revenue to the state when filing a return.

A rate change that occurs on April 15, 2016, would be reflected on tax returns due May 25, 2016. These tax returns should reflect a sales tax rate of 6.5 percent for transactions that occur April 1 to April 14, 2016. Transactions that occur April 15, 2016, or later should reflect a sales tax rate of 5.5 percent. Based on experience, returns filed immediately after a rate change have more errors than other returns. It is assumed that a high number of tax returns submitted in May 2016 will contain errors. DOR staff must manually process and

resolve each return that is in error, is out-of-balance or amends a previous return.

In addition to increased labor costs for processing a higher number of incorrect returns, DOR would experience other expenditures, as follows.

Fiscal year 2016:

- Programming and testing computer system changes.
- Printing and mailing a special notice to affected taxpayers.
- Updating other notices, publications and web-pages.

Fiscal years 2016 through 2021:

- Preparing additional refunds and assessments.
- Responding to more questions from affected taxpayers submitted through normal processes and a secure DOR system.

Scenario 2

The Legislature refers a constitutional amendment to voters prior to April 15, 2016. The constitutional amendment would appear on the November 2016 general election ballot.

State and Local Government Expenditure Assumptions

- The state would not pay the cost of including a constitutional amendment on the ballot.
- County governments would pay the cost of including a constitutional amendment on the ballot.
- The amendment and other required information would be included in the state Voters' Pamphlet and Online Voters' Guide.

State Expenditures

The Office of the Secretary of State's expenditures for the 2016 general election Voters' Pamphlet could increase by as much as \$101,000.

Voters' Pamphlet costs are based on the number of pamphlets printed, the number of pages in each regional edition of the pamphlet, layout and composition work, distribution, postage, translating the pamphlet into minority languages as required by federal law and producing the pamphlet in accessible formats for voters with disabilities. The content required by Chapter 29A.32 RCW also contributes to the expense. For constitutional amendments, the Secretary is required to include the text of the amendment, pro and con arguments, the legal identification of the amendment, the official ballot title, an explanatory statement prepared by the Attorney General and the total number of votes cast for and against the amendment in the Legislature.

Based on historical Voters' Pamphlet expenses, the estimated cost of the 2016 Voters' Pamphlet is \$12,625

per page. Due to constraints in the printing process and the minimum contents required by state and federal law, the Secretary generally assumes each amendment or measure will use eight pages in the pamphlet. If the amendment described in this initiative uses eight pages, it would add \$101,000 to the total cost of the pamphlet.

Local Government Expenditures

County governments will experience greater expenditures for the 2016 general election. The cost to county governments cannot be estimated prior to the election.

The 39 counties in Washington incur costs for conducting elections, including printing ballots and ballot materials, distributing blank ballots, and canvassing and tabulating voted ballots. A jurisdiction with candidates or measures on the ballot reimburses counties for its prorated share of election costs. However, as provided for in RCW 29A.04.420, the state reimburses counties only for its share of election costs when federal and state races or state measures and constitutional amendments appear on the ballot in an odd-numbered year.

Argument For Initiative Measure No. 1366

Five Times the Voters Have Approved Initiatives Requiring Either a Two-Thirds Vote of the Legislature...

...or majority vote of the people to raise taxes. Five times. In 2012, 64% of voters approved it. Voters clearly want tax increases to be *an absolute last resort*.

Nonetheless, Olympia won't listen to the people unless we pass I-1366. Recent history shows why.

For the Two Years Following Voter's Approval in 2007, I-960 Worked Exactly as Voters Intended

With I-960, tax increases *were* a last resort and Olympia balanced its budgets without raising taxes. In 2010, they suspended I-960 and increased taxes *a whopping \$6.7 billion*, a huge betrayal of the public trust. KING 5's poll: 68% thought it was the wrong thing to do. This year's Legislature, without the two-thirds requirement in effect, increased taxes *a jaw-dropping \$17.5 billion*. Passing I-1366 sends a clear message: we need protection from Olympia's insatiable tax appetite.

We Need Certainty in Tough Economic Times

We need an economic climate where families feel confident, employers expand, and job growth is positive. I-1366's protections provide a stable future, giving families and employers the certainty they need to prosper.

Olympia Faces Another Big Deficit Because Unsustainable Spending has Once Again Outstripped Revenue

We simply can't afford to have it all. When voters pass I-1366, Olympia will be prodded to reform government, prioritize spending and re-evaluate existing programs. If voters reject I-1366, Olympia will resort to job-killing, family-budget-busting tax increases. Hold Olympia accountable for your tax dollars – vote yes.

Rebuttal of Argument Against

Politicians raised taxes *a jaw-dropping \$17.5 billion* this year. They simply can't control themselves. I-1366 is the Taxpayer Protection Act – its intent is protecting taxpayers from Olympia's insatiable tax appetite, either by reducing their crushing tax burden or letting the people vote on a tougher-to-raise-taxes constitutional amendment. The initiative prods the Legislature to confront the critical issue of overtaxation. Olympia will continue to ignore the people unless voters pass I-1366. Vote yes.

Argument Against Initiative Measure No. 1366

Tim Eyman's I-1366 forces lawmakers to either change our Constitution—allowing a handful of ideological legislators to dictate the agenda for *all* of our State— or face \$8 billion in unnecessary cuts to essential services over six years. It's a false choice that takes Washington backward.

A Roadblock to Reform

Washington has the most regressive tax system in the nation, unfairly harming middle and lower income households, startups, and small businesses. Under 1366, as few as 17 ideological legislators from either party, out of 147 total, can block reforms that could make state government work better for us all.

Steep Cuts We Cannot Afford

By holding lawmakers — and taxpayers — hostage to a constitutional change, 1366 would force deep, unnecessary cuts to K-12 schools, higher education, public safety, and healthcare. Our kids would lose from rolling back bipartisan gains in school funding with increased class sizes, out-of-date textbooks and technology, and fewer good teachers.

Constitutionally Flawed

I-1366 is so flawed it will likely be found unconstitutional, wasting millions in legal fees that could be better spent on law enforcement, healthcare, and other basics. Let's reject the politics of hostage taking, and protect our Constitutional tradition of passing legislation by majority vote, by saying *no* to 1366.

Bipartisan Leaders and Organizations Agree: Vote No!

Washington State Democrats; retired Republican Secretaries of State Sam Reed, Ralph Munro; WA Education Association; WA State Labor Council; League of Education Voters; WA Council of Fire Fighters; WA Conservation Voters; NAMI of WA; League of Women Voters.

Rebuttal of Argument For

The Tri-City Herald sums up 1366: "The initiative is an extortion measure wrought with problems. If approved, it would devastate the state budget unless the Legislature bows to the will of Eyman and his backers." Unless lawmakers change our state Constitution, 1366 would cut \$8 billion over six years, destroying bipartisan investments in K-12 schools and higher education. Businesses oppose 1366 because it would worsen our business climate and damage our economy. Vote No.

Initiative Measure No.

1401

concerns trafficking of animal species threatened with extinction.

This measure would make selling, purchasing, trading, or distributing certain animal species threatened with extinction, and products containing such species, a gross misdemeanor or class-C felony, with exemptions for certain types of transfers.

Should this measure be enacted into law?

☐ Yes

☐ No

The Secretary of State is not responsible for the content of statements or arguments (WAC 434-381-180).

Explanatory Statement

Written by the Office of the Attorney General

The Law as it Presently Exists

An international treaty called the “Convention on International Trade in Endangered Species” identifies many species of animals and plants that are at risk of extinction worldwide. Among the species this treaty addresses are species of elephant, rhinoceros, tiger, lion, leopard, cheetah, pangolin (also called a spiny anteater), marine turtle, shark, and ray. The United States agreed to this treaty in the 1970s. Federal law makes it illegal to sell, import, or trade in endangered species listed by the treaty, or in parts or products made from animals that are listed as endangered (with some exceptions). Washington state law does *not* prohibit the purchase, sale, trade, or distribution of parts or products made from endangered species of elephant, rhinoceros, tiger, lion, leopard, cheetah, pangolin, marine turtle, shark, or ray.

The Effect of the Proposed Measure, if Approved

If adopted, this measure would prohibit any person in Washington from selling, buying, trading, or distributing

parts of certain endangered animal species, or products containing or made from those animals. Specifically, the measure would apply to parts or products made from elephants, rhinoceroses, tigers, lions, leopards, cheetahs, pangolins, marine turtles, sharks, and rays. But it would apply only to species of those animals that are listed in either Appendix I or II of the “Convention on International Trade in Endangered Species of Wild Flora and Fauna,” or listed as critically endangered, endangered, or vulnerable in the lists of endangered species compiled by the International Union for Conservation of Nature, which is an international conservation organization.

The measure also includes five exceptions when it would not apply. These exceptions include: (1) sale or trade of antique items if the endangered animal makes up less than 15% of the item; (2) animal parts or products distributed for educational, scientific, or museum purposes; (3) when items are distributed under a will, estate, or trust after death of the owner; (4) musical instruments if the endangered animal part makes up less than 15% of the instrument; and (5) where trade in the item is allowed by federal permit or law.

A violation of the law could be a state crime. The violations would be either a gross misdemeanor or a class-C felony, depending on the market value of the illegal animal parts or products. If a person is convicted for violating the measure, the person would also be ordered to pay a criminal wildlife penalty of 2,000 or 4,000 dollars. The measure would also modify the power of state law enforcement officers to include authority to seize and dispose of illegal parts and products from the endangered species that are covered by the measure.

Fiscal Impact Statement

Written by the Office of Financial Management

Summary

Initiative 1401 (I-1401) makes it a crime to sell, offer to sell, purchase, trade, barter for, or distribute any covered animal species part or product. Covered animal species are any species of elephant, rhinoceros, tiger, lion, leopard, cheetah, pangolin, marine turtle, shark or ray. I-1401 would have an unknown impact on state revenues. Washington State Department of Fish and Wildlife would experience increased expenditures if additional law enforcement officers were hired. Other state and local judicial expenditures are estimated to be less than \$50,000 per year. Local governments would experience an unknown increase in incarceration expenditures.

General Assumptions

- The effective date of the initiative is December 3, 2015.
- Unless otherwise noted, estimates use the state's fiscal year of July 1 through June 30. Fiscal year 2016 is July 1, 2015, to June 30, 2016.

State Revenues

Section 3 of the initiative creates two new crimes and two new fines. A person convicted of unlawful trafficking in species threatened with extinction in the second degree, a gross misdemeanor, would pay a \$2,000 criminal wildlife fine. A person convicted of unlawful trafficking in species threatened with extinction in the first degree, a class C felony, would pay a \$4,000 criminal wildlife fine. Revenue from these fines would be deposited in the Fish and Wildlife Enforcement Reward Account. There are no data available to estimate the number of convictions that may occur. Therefore, state revenue from these new fines cannot be estimated.

State Expenditures

The Washington State Department of Fish and Wildlife (WDFW) does not currently perform enforcement activities related to the animal species covered by I-1401. While the initiative does not require WDFW to hire more law enforcement officers, the agency would likely seek new funding from the Legislature for additional officers or detectives. For example, a request for a dedicated enforcement effort that includes five officers and one detective would cost \$815,000 per fiscal year.

Current fish and wildlife enforcement activities are funded primarily through the state Wildlife Account and the state General Fund. Some of these activities are funded through the Fish and Wildlife Enforcement Reward Account. New enforcement activities could be funded through any or all these sources.

The state Wildlife Account is used for protection of state fish and wildlife, administrative and certain operating expenses of WDFW, certain administrative costs for the Department of Licensing and enforcement of state game laws. The state General Fund may be used for any government purpose such as education; social, health and environmental services; and other general government activities. The Fish and Wildlife Enforcement Reward Account is used only for investigation and prosecution of fish and wildlife offenses, rewards for reporting fish and wildlife crimes, and hunter education programs.

Local Government Expenditures

District and municipal courts (counties and cities) may experience increased costs for hearing additional gross

misdemeanor cases. Superior courts (counties) may experience similar increased costs for hearing additional felony cases. The Administrative Office of the Courts estimates the fiscal impact of these cases to be less than \$50,000 per fiscal year if there are fewer than 400 additional gross misdemeanor cases statewide each year and fewer than 65 additional felony cases statewide each year.

A person convicted of a gross misdemeanor or unranked class C felony and sentenced to serve time in jail would serve the time in a county or city jail. Based on data from the Washington State Caseload Forecast Council, the average length of incarceration for conviction of an unranked class C felony is 86 days. The average cost of incarceration at a county or city jail is \$88 a day. Based on these data, a county would experience annual expenditures of \$7,568 for each person convicted of a class C felony. Similar data are not available to estimate the cost of jail time for each conviction of a gross misdemeanor. There are no data available to estimate the number of felony or misdemeanor convictions that would occur statewide in a year or how many convictions would result in jail time. Therefore, the total annual incarceration costs to local governments cannot be estimated.

Argument For Initiative Measure No. 1401

Initiative 1401 will help save endangered wild elephants, rhinos, lions, tigers, leopards, cheetahs, pangolins, marine turtles, sharks and rays— all at risk of disappearing from Earth forever.

Stop Wildlife Trafficking

The scale of the poaching crisis is immense. In one recent case, poachers poisoned a watering hole with cyanide, killing 300 elephants at once. Every fifteen minutes, on average, poachers kill another elephant for black-market ivory – sometimes even sawing off the animal's tusks while it's still alive. By penalizing those who traffic in these and other illegal animal products, I-1401 will help put an end to such cruelty and save these iconic animals from extinction.

We Can Make a Difference

The United States is the world's second-largest market for products from endangered species, and the Ports of Seattle/Tacoma are major entry points. Since 2010, there have been more than 50 seizures of elephant products entering Washington State alone. I-1401 will give state authorities new tools to choke off this illegal trade before these endangered animals are driven to extinction.

Conservation Experts Support 1401

I-1401, written in close consultation with leading wildlife scientists and law enforcement experts, is supported by many respected organizations including the Humane Society of the United States, Sierra Club, National Wildlife Federation, Woodland Park Zoo, Seattle Aquarium, and Point Defiance Zoo and Aquarium.

By voting yes on I-1401, we can do our part to help save endangered animals from extinction.

Rebuttal of Argument Against

Over the past decade, the involvement of organized criminals targeting endangered wildlife has grown faster than we thought possible. Its presence is felt in many markets, including the U.S. We are literally driving species to extinction – from rhinos to rays – and decisive leadership at the state level is needed to stop this trend. 1401 closes loopholes and provides law enforcement with critical tools to combat the illegal trade. *Mary Rice, Executive Director, Environmental Investigation Agency*

Argument Against Initiative Measure No. 1401

Endangered Species Are Already Protected

We all love elephants. This initiative doesn't protect them. Proponents provide no evidence this ban will stop trafficking or poaching in other countries. Poaching and trafficking in poached ivory is already a felony under International and Federal laws and has been for decades. Poaching has increased because of demand in Asian markets not because of the purchase and sale of ivory from before the ban on importation into the United States. This initiative targets legally purchased, legally crafted, legally owned ivory. It targets antiques.

The "Antique Exemption" is a sham

In section 3(2)(a) of the initiative an antique is exempt only if it is more than 100 years old, is less than 15% ivory and you have all the paperwork to prove it. If this passes you could be charged with a felony and fined \$14,000 for selling your grandmother's elephant ivory necklace for \$250. Chess sets, jewelry, figurines, poker chips, buttons and beads, anything more than 15% ivory would become worthless. All your investment would be gone

This Initiative Takes Away Ordinary People's Property

If you legally "own" something but cannot sell it or give it away do you have anything left of value? All this initiative would let you do is donate it to a museum or pass it through a will to heirs who couldn't sell it or give it away either. Most people who have family heirlooms or collections are not billionaires. Property owned legally should continue to be legal.

Rebuttal of Argument For

This initiative does in fact target antiques. Proponents admit current law is working and seizures of illegally poached ivory are already happening at our ports. What is different about this proposal is it will criminalize dealing in legal antique ivory. The US holds the world's second largest reserve of decades old vintage ivory. Culture changes but cultural history should not be erased. Learn from it, don't destroy it. What is legally acquired should stay legal.

Welcome to Skagit County's 2015 Voters' Pamphlet

In the following pages, you will find candidate submissions, ballot drop box locations, and ballot voting instructions. We hope this information helps you make your voting choices.

Odd year elections are largely non-partisan Elections, to select the local leaders of our cities, towns and special districts. These are the decision makers affecting the future, security, and safety of our daily lives. Candidates vie for 4-year terms for positions such as Mayor, City Council, School Board and Park and Recreation District board, and 6-year terms in Hospital, Fire, Port, Cemetery, Sewer, and Water Districts.

Our Ballot Drop Boxes are convenient and their popularity continues to rise. We received 75% of ballots cast in the 2015 Primary Election by drop box, giving us one of the highest usage rates in Washington State.

Our goal is to provide a secure, accurate, efficient, transparent and economical election process. We encourage citizens to exercise their freedom to influence the future of our communities and our country. Visit our website at www.skagitcounty.net/elections to learn about:

- the current election
- elections history including your own voting history
- your elected leaders
- ballot drop box locations
- on-line voter registration
- a host of other elections information.

Our website also has an online version of this voters' pamphlet.

Please call us at 360-336-9305, email us at sselections@co.skagit.wa.us, or drop by our Elections Office with questions, concerns, or requests.

Your vote counts – you do make the difference – our freedom is in elections!

Skagit County Auditor

Community Service: Skagit Land Trust; Anacortes Conservation Voters Board of Directors, 2003-present; Evergreen Islands Board of Directors, 1998-2011

Statement: Four years ago, I ran for City Council to be a strong, independent voice for our community. City government must be fair, open, and honest, and we have made tremendous strides in the past 18 months toward those goals. But there's much more work to do.

As an attorney with nearly a decade of experience representing local government, I know the challenges of navigating the complex system of laws and rules that cities face. I favor a professional, active city government that does whatever it can to facilitate local jobs and a healthy economy. In the next four years, I hope we'll have substantial community conversations about deploying a resilient and affordable fiber optics network and adding a conference center to attract visitors during the off season. I'll continue to push for effective financial planning for maintenance and replacement of our capital facilities—including our roads, water infrastructure, and city hall.

I'm particularly excited about working to finish our Comprehensive Plan in 2016, which will finally provide clear direction and certainty for both developers and our neighborhoods. A good Comprehensive Plan is critical to preserving our vibrant community, facilitating economic development, and developing our waterfront consistent with the city's vision.

President, Anacortes Salvation Army board of advisors. Board of Advisors, Anacortes Boys & Girls Club. Deacon, Christ Episcopal Church.

Statement: After moving every few years during my military career, my wife, Lynette, and I are happy to have found a permanent home in Anacortes. Living in this great town for the past 13 years has given us a wonderful opportunity to be deeply involved in the life of our community.

I've been able to use the skills I developed during my Air Force career—long-range planning and strategy formulation, personnel and systems management, training development, problem solving, decision-making and financial management—on behalf of a wide range of community projects and toward my duties on the city council.

I have a lifetime of experience in putting together teams and in creating consensus in groups to move ideas forward and turn these into reality. I intend to continue to be part of a team of residents, community leaders and business owners—both in Ward 3 and all of Anacortes—who want to work for the common good of our community.

Elected Experience: Hamilton Town Council 5 years, Mayor 3 years

Other Professional Experience: Earned Certificate of Municipal Leadership from the Association of Washington Cities; will have earned Advanced Certificate of Municipal Leadership by election time; Finance Assistant, Skagit County Community Action; retail

Education: Bachelor of Science, Millersville University of Pennsylvania 1991

Community Service: Booster Team for Evergreen Elementary in Sedro-Woolley (Treasurer, 6 years), Girl Scouts (Leader, Event Director, 5 years), helped create Hamilton Library

Statement: We've made great steps in the last three years to get some needed basics in place, including paving 23% of the streets, updating street signs, and upgrading computer systems. There's a lot more to be done, such as the required update of the Comprehensive Plan, formatting the ordinances into a municipal code, and more paving. A newer ambulance is in the works, hopefully that will be done by the end of this year.

I've attended trainings and workshops on various topics like volcano crisis awareness, rural prosperity, and budgeting to find new ways to protect and improve our community and its government. The budget is now designed so that we are saving money for larger projects like replacing water lines and park equipment, not spending every dime that comes in.

I'd like to see more of our systems brought up to standard, and find more effective ways to enforce our ordinances that don't require spending your tax money to clean up problems created by other people.

If you're reading this, I hope it means you're going to vote. Thank you. Take an interest in how the Town works, and together we can make Hamilton a better place.

Statement : My background includes working in investments for many years. That allows me to understand both the language and importance of the usage of money. I think that will be good for our wonderful town. Also, I spent time in municipal risk management as the Risk Manager for Whatcom County in the late 70's. That experience gives me some idea of the inner workings of municipal government.

Education: MS in Occupational Therapy from Boston University and BA in Psychology from University of Vermont

Community Service: Current member of Soroptimist International - La Conner and past Volunteer/EMT with District 13 Fire Department 2010-2013

Statement : La Conner has been my home for over 25 years. It is a unique small town community committed to public safety, economic viability, cultural diversity and the sustainability of a historic small town atmosphere. To serve these interests, La Conner requires much of the same infrastructure necessary for a larger municipality with limitations in scale but strengthened by the dedication of an outstanding staff and citizenship. Our job as your elected representatives on the Town Council is to engage in collaboration while balancing the range of needs with an informed view of both budget constraints and funding opportunities.

My experience working in special education teams as an occupational therapist as well as my involvement with community efforts to support public safety, youth activities and the arts has provided ample opportunity to learn about systems, resource allocation, and mutual benefits. Community participation in town government with a healthy dialog about issues and actions is encouraged to yield positive and practical results.

Town Council has allowed me to develop an increasingly in-depth and considered perspective on the operations, planning and budgeting of town government. I welcome an opportunity to continue the work of representing this community on the Town Council.

Statement: : While most elected officials believe they represent the government, Kevin Loy is passionate about representing the people.

Effective as of July 1, 2015, Sedro-Woolley has imposed an additional \$20 per year tax to register a vehicle. Only two council members voted against this ridiculous tax. Kevin Loy was one of them. We have voted for \$30 tabs many times, and now the city imposes and additional \$20 fee?

Loy would like to work with the public and city council to develop the 10 acres on Rhoades Road into a city park. The future of the library is also a concern to Loy. He plans to engage citizens, city council, and library personnel to develop a vision and carry it out for the future of the city library. Loy feels that you cannot tax your way to prosperity and that the City of Sedro-Woolley needs a change in philosophy. Kevin Loy would be honored to receive your vote and serve as your mayor.

Serving my second year as Mayor Pro Tem, I have represented our city at: Skagit Council of Governments, Jail Advisory Committee, Solid Waste System Governance Board; Skagit Transit Board, Skagit Sub-Regional Transportation Planning Organization, etc., gaining experience that no other sitting City Councilman has.

I have voted against every property tax increase that has come before me and led the way to prevent our City from "banking" retroactive tax increases.

If you are "positive" on Sedro-Woolley and love our town please give me your vote. I will work hard to help us grow responsibly while respecting the unique character and heritage of our home.

Community Service: Sedro Woolley Planning Commission Meals on Wheels Sedro Woolley Crime Watch Sedro Woolley Senior Center

Statement: Sedro Woolley is my home, and has been for the past 57 years. I believe this is a great place to live and raise a family. I have noticed some negative changes too, including high taxes, like the \$20 car tab tax. We can't keep raising taxes and think that will solve all of our problems. I want to work together with the citizens of this community and the other elected officials to improve the economy and standard of living in this city, today, and for the future generations. I support any reasonable plan to attract business. We need jobs and tax revenue from businesses if Sedro Woolley is going to thrive. Some of the issues that are important to me are employment opportunities for our citizens, economic development, visual appearance and up keep of the city, and integrity in the government. I have been happily married to Virginia for 57 years, and raised two children in Sedro Woolley. If elected I will work hard to serve this community to the best of my ability. If leadership doesn't change, our city is facing a downhill slide. We need leaders who will solve problems. For positive changes, vote Chuck Owen.

Elected Experience: January 2010 to present, Burlington-Edison School Board.

Other Professional Experience: I have been an attorney for 22 years; practicing in Skagit Valley since 1995. I served in US Army Reserves from 2002 to 2013. Graduate of Army Officer Advanced/Basic school.

Education: I attended Anacortes High, Seattle University (business degree) and earned my law degree at Creighton University.

Community Service: I volunteer at the Community Action Clinic.

Statement: I have served as a Board member since January 2010.

Each morning, our precious youth head off to school. These children deserve the very best education.

My desire is for each student to receive a well-balanced education in traditional academic subjects (math, reading and science), as well as other equally pertinent subjects such as art, drama, athletics, music, band and others. Despite constant budget constraints, I will not waiver in my belief on funding this essential core curriculum.

Our local citizens pay 75% of the costs of education. This is daunting on the local taxpayer. I will be a thoughtful steward of your tax money. I will not support any prospective levy or bond that is not essential.

Our district could be confronted with the challenge of building future schools or remodeling existing ones. Our board has placed into practice the proper analytical tools needed to make well informed decisions.

I believe that community visibility and accessibility is essential. I attend most athletic/school events and I have children in the system. I will make myself available to listen to comments or concerns.

I would appreciate your continued support

Working as a hospital RN has given me an opportunity to see what works and what doesn't. Patient care is the essence of why the Board exists. Every time the board makes a decision the members must ask themselves. "How will this effect patient care?" My executive experience in the Army and sixteen years running a construction business helps me see to see the big picture from the business/community viewpoint. My twentyfour years of hospital nursing allows me to see the micro-picture as seen from the hospital bedside. MD's, other nurses, technicians, therapists, housekeepers, engineers, unit assistants, etc, all have insights that can, and do, impact the smooth running of the hospital. Being a conduit of these voices to the board will help guide good decision-making.

Community Service: Served Salvation Army advisory board 17yrs., Member First Baptist Church, Marine Corps League, Civic Affairs, Have serve as a Rotarian

Statement: As one of 5 Anacortes Port Commissioners, I am committed to do my best with decision being made at the Port. Our port facility is noted as one of the best. We have a people friendly waterfront, and many businesses that operate as partners with the Port.

I am proud to say that with my votes, we have signed a 40 year lease with DCI Shipyard, settled the ILWU contract, and finally signed a petroleum coke contract with Shell. We also settled the parking lot issue with the NESD.

We have been able to purchase the Marine Hardware and the Quiet Cove property, so as to allow Port growth. My moto: "buy adjacent property for future business and employment expansion."

Looking forward I would like to secure property for small boats, and possibly a launch facility. We should plan for an events center. Additionally we need to secure more products for shipping at our Marine Terminal. The Commission's policy is to restrict tax expenditures for the benefit of the Anacortes Port Community. I fully support this policy.

I am personally proud of what has been accomplished at the Port of Anacortes. I am asking for you vote for re-election.

Other Professional Experience: Engineering and Maintenance Management with Shell and Tesoro for 34 years. Anacortes Chamber Board for 17 years.

Served on transportation and Comprehensive Planning committees for Skagit County, SRTPO, the City and the Port of Anacortes.

Statement: Anacortes needs a strong economy based on family wage jobs. Diversity will help us withstand downturns in any one economic area. The port should promote fishing, marine services, manufacturing, industrial, tourism and technical sectors.

The Port should champion community access to its waterways and port properties. It is good business to be a good host. Practicing safety and preserving ecologic health should be expectations for all.

I stand for accountability and transparency in government and will not allow any violation of the open meetings act nor condone private negotiations between individual commissioners and port clients.

Taxes should be kept low. Land decisions must be strategic, well planned and financially sound.

The Port should collaborate in planning, permitting and economic development strategies with the City of Anacortes. Lawsuits between these two governments are a waste of our tax dollars.

We have all the advantages and have done much of the groundwork to make Anacortes the most attractive port on Puget Sound. Let's make it happen!

William J. (Bill) Shuler

Elected Experience: 8 years Sedro-Woolley Councilman. 51/2 years Port Commissioner

Other Professional Experience: Executive Director Community Action of Skagit County. Special Programs Manager Skagit Valley College. Community Development consultant Office of Community and Economic Development (Governors office) managed field office. Associate planner Skagit County Planning Dept. Authored the counties initial Economic Development Plan and other related projects.

Education: College graduate

Community Service: Member or former member: Skagit County Community Foundation, Norlum Foundation, Chairman Housing Authority Skagit County, EDASC, SW Rotary, SW Eagles, Job Corp Scholarship Committee, Bethlehem Lutheran Church Council, chairman United Way Campaign and numerous others.

Statement : Port of Skagit Mission: "Good jobs for our community." The commission and staff have worked extremely hard to fulfill this commitment. Since I was elected commissioner the port has experienced unprecedented growth. Gielow Pickles, Skagit Valley Malting, and Mavrik Marine LLC, to name only a few new businesses. Existing businesses such as Hexcell and Team Co are expanding. Much has been accomplished in a short time but there is much more to do. If reelected I will do my utmost to ensure the port keeps moving forward.

The Port also has a major new initiative underway at the old Northern State site. Janicki's Bio-energy's omni processor project has incredible potential for many high quality jobs locally.

Your Port is about much more than acquiring and managing properties. Infrastructure, forging partnerships, developing economic strategies and recognizing and embracing new opportunities are just a few commissioner responsibilities.

I think we have an exceptional commission whose strength is based on mutual respect, openness to new ideas, sound decision making, and fairness to all. It has been an honor to serve. I believe I have demonstrated the experience, skills, and leadership necessary for a robust progressive port.

I would deeply appreciate your support.

Statement : Skagit Valley means *home* to me. Every time I emerge into the Valley from Conway or Bow Hills, I have an intense sense of home and how much I love being here. Having lived in Skagit Valley for most of my life I will always love, respect, and honor its natural beauty. My family came to Skagit County in 1920 and enjoyed a comfortable life.

Yet *change* happened and, for those of us in Port District 3, it was not all good as many of the jobs we counted on were lost. Now our community is on the verge of a major breakthrough in technology and manufacturing. We can still offer a beautiful place to live, while providing good-paying jobs. An example is the development of the Northern State Campus, which is vital to sustainable and controlled growth. Skagit Valley will become the 21st century leader in world-changing technology.

Forward thinking and positive action are the keys. The Chamber has been one avenue to being a part of what is new and exciting, but I would like to see plans move forward into action. As Port Commissioner I will work for you, creating good jobs and a strong, vital community.

Town of Concrete Proposition No. 1

Shall the Town of Concrete be annexed into and be part of the Upper Skagit Partial-County Rural Library District?

☐ Yes

☐ No

Explanatory Statement

Written by the Town of Concrete

The Upper Skagit Partial-County Rural Library District was formed in 2001 and officially opened its doors in 2005. Currently, the Town of Concrete is not a part of the Upper Skagit Partial-County Rural Library District, which provides the Town of Concrete residents with limited library services for the cost of a library card. Those residents residing outside of the Town of Concrete town limits but within the Concrete School District boundaries receive library services through payment of property taxes. Town residents are being asked to decide whether they wish to continue with the current process or annex the Town into the Upper Skagit Partial-County Rural Library District.

Annexation of the Town of Concrete into the library district would bring full library services to the town, equal to the same services that people living in the unincorporated area (or county) already receive. Annexation would allow the library district to levy taxes within the boundaries of the town at the same rate and on the same basis as the tax levied in surrounding unincorporated areas.

If annexation is approved, property owners in the town limits will pay an annual tax of up to 50 cents for every \$1,000 of their property's assessed value beginning in 2017. This means that owners of a home with an assessed value of \$100,000 would pay up to \$50.00 a year as part of their property tax bill.

With annexation into the library district, town residents may immediately get a library card at no additional cost.

If town residents change their mind regarding annexation after voting to approve it, the Town Council may give town voters the option to leave the library district anytime after the first three years of annexation.

Fidalgo Pool & Fitness Center District Proposition No. 1

Maintenance and Operations Levy

Shall Fidalgo Pool & Fitness Center District continue to be funded for the six years (2016-2021) by a tax of approximately \$0.1394 cents per \$1,000 assessed valuation (for example \$100,000 assessed property value equals \$13.94 per year) to provide \$618,394 in 2016, with additional increases if deemed necessary that will not exceed 1% each year, to pay part of maintenance and operational expenses, with taxes to be collected in 2016 - 2021. This amount is exclusive of additional revenue resulting from new construction, improvements to property, newly constructed wind turbines, any increase in value of state assessed property, and any annexations that have occurred or refunds made.

☐ Yes

☐ No

Explanatory Statement

Written by Fidalgo Pool & Fitness Center District

Fidalgo Pool & Fitness Center (FPFC) is a separate municipal corporation not financially affiliated with the City of Anacortes or Skagit County. The FPFC District was formed by voter approval in May 1972 to build and operate a swimming pool for Fidalgo Island residents. A fitness center was added in 1986 to accommodate strength training and group exercise classes. Due to the expense to maintain the facility and to keep the doors opened, the FPFC District requires levies to supplement user fees collected at the front desk. The District is required to obtain voter approval every one to six years to continue this support. In 2015, the FPFC's levy is scheduled to be approximately \$637,525. With approval by the voters on this new levy, the District will be authorized to receive \$618,394 in 2016 to continue maintenance and operations for six years. The levy will cover years 2016 through 2021, and will not exceed an increase of 1% each year. The mil rate for this election is the same mil rate that was asked for by the District in the 2012 General Election.

Argument For

Town of Concrete, Proposition No. 1

Vote Yes on Proposition 1 for our library!

The Upper Skagit Library provides books, magazines, reference materials, videos, computers, technical assistance, internet access, tutoring, and programs for all ages. It fills a huge void for youth and seniors, and it nourishes everyone's desire to learn. No other place offers so much to so many in our community.

Vote Yes to improve the future of Concrete's children.

The library opens our children's minds to the greater world of ideas, business, and technology that they need to succeed. Approval will give Concrete's kids full access to all library services so they don't miss out on important learning opportunities that affect their future.

Vote Yes to level the playing field for educational resources in Eastern Skagit County.

Give every Concrete resident full access to all library services, including borrowing privileges at five other libraries in Skagit County. No longer will some children have more resources available for homework than others in the same classroom.

Vote Yes to invest in your community and the people who live in it.

Investing in your library is the same as paying for roads, hospitals, fire, or police protection. The property tax increase allowed in this measure will pay for library services for all Concrete residents. Even with the slight increase, your total tax rate will still be lower than that for other East County residents. Community investments in education and technology attract new businesses. More businesses mean more jobs, more local services, and a brighter future for all.

Simply Vote Yes.

From the founding days of Concrete, the public library has been an essential part of our community. Make Concrete an equal partner in the library and an even better place to live.

Val Stafford, Barb Trask

Argument Against

Town of Concrete, Proposition No. 1

We have a few questions about "WHY" you would want to be annexed into the County Library system

WHY would you want to raise your taxes just to receive a "free" library card?

All property owners in the town will pay an annual tax of up to 50 cents for every \$1,000 of their property's assessed value. This means that owners of a home with an assessed value of \$100,000 would pay \$50 as part of their property tax bill.

WHY not purchase a library card?

This so that the property owners who do not use the library, do not have to pay. (\$8 for three months (1/4 year), \$30 for one year, \$25 for one year (senior 65+ or handicapped), \$10 for one year (additional family member)).

WHY would you want your local equity to be moved to the County?

This meaning that your local taxes would be moved to support **all** the county libraries.

WHY not:

Support a Town library (that was closed due to the moving in of the county library?)

Support the school library?

Have the security and availability of your own Wi-Fi?

Keep Town taxes in the Town of Concrete?

Currently the library is open 4 days a week. The hours are "bankers" hours and not available for the working families. Also, many different people use the "free" Wi-Fi at **all** hours of the night. WHY would you want to support "FREE" Wi-Fi for **all** the people in the county?

Rebuttal of Argument For

The FACTS: The library tax **all** goes to provide services locally; **none** goes to other libraries.

The library's schedule includes being open **Saturdays** and **late** twice a week. More hours are possible with annexation.

The Upper Skagit Library helps people of **all ages**, not just school kids.

The library's WiFi is a **lifeline** for residents without Internet at home. It also attracts visitors who help local businesses **thrive**.

The old library closed because the Town couldn't afford to operate it alone. With annexation, the Upper Skagit Library will **belong to everybody** in Eastern Skagit County.

Argument For Fidalgo Pool & Fitness Center District Proposition No. 1

The Fidalgo Pool & Fitness Center is a community asset that serves the wellness and recreational needs of all ages. The pool and fitness center, opened seven days a week, is in constant use supporting rehabilitation, group fitness, weight training, club swimming, water safety classes and public school aquatics.

The pool is a place where kids and adults can learn how to swim, participate swim training or therapy or compete in organized team swimming. Families can share quality time during open swims, and seniors can engage in group activities to improve mobility and strength.

We need the Maintenance and Operation Levy to keep user fees affordable for all citizens. The Maintenance and Operation Levy is an ongoing obligation, not a new tax, and must have voter approval to continue. Utility bills, operating and custodial supplies, facility and equipment repair or replacement, professional services, and insurance coverage are among the expenses covered by the levy.

The District is asking for the same mil rate of \$0.1394 cents per \$1,000 assessed valuation as requested in the November 2012 General Election for levy years 2013-2015. According to RCW 36.69.145, a park and recreation district may ask for a levy for six consecutive years, and the District needs approval for years 2016-2021. We believe the District is being prudent with the use of taxpayer dollars, and Fidalgo Pool and Fitness Center is financially responsible.

The Thunderbird Aquatic Club and Friends of Fidalgo Pool and Fitness are pleased to be essential partners with the District and urge you to vote YES for the Districts' Maintenance & Operations Levy. Thank you!

Rebuttal of Argument Against

Fidalgo Pool is a valuable community asset without question; however, diminishing the voter's ability to provide oversight will only expose the district to increased risks. Already no public input sufficed when the Board voted to build the Fitness Center. Now more capital improvements are being discussed for the near future. An extended levy will minimize the impact of public input for six years. Three year levies have helped to create a better Recreation District for almost forty years. Vote no to this extended six year levy and yes to a three year levy once it is proposed.

Argument Against Fidalgo Pool & Fitness Center District Proposition No. 1

The Board and the Director maintain that an extended six year Maintenance & Operation Levy will save taxpayers money. In fact, a property owner's individual tax responsibility will not change by increasing the term of the levy. An extended levy, however, will provide the District with six years of guaranteed revenue which may encourage the District to pursue another major "non-voter approved" bond as done with the new Fitness Center addition.

The Board had no need to seek voter approval at the polls since the District's debt limit for "non-voter approved" bonds is over 12 million dollars. So, the Board opted to finance the Fitness Center addition with a "non-voter approved" bond. "Non-voter approved" bonds must be paid for by revenue which is not tax based. This means that the District must assure its creditors that the facility will remain open to pay the bond.

An extended M&O Levy helps make this assurance. Voters must be cautious of any measure which might lead the District to finance an even larger "non-voter approved" bond since financing large capital improvement projects with "non-voter approved bonds" always minimizes public input. Public building projects that do not receive adequate public input are less likely to address the public's real needs when compared to projects well scrutinized.

The public's ability in years past to weigh in and voice their approval or disapproval of M&O Levies every three years is oversight and has helped to keep the District responsive to the public's needs. Currently there are no other Parks and Recreation Districts in Washington which operate a public pool or fitness center that are funded with a six year M&O Levy. Vote no on this six year extended M&O Levy, and then support the three year M&O Levy when it is proposed in the near future.

Initiative Measure No. 1366

AN ACT Relating to taxes and fees imposed by state government; amending RCW 82.08.020, 43.135.031, and 43.135.041; adding new sections to chapter 43.135 RCW; creating new sections; and providing a contingent expiration date.

BE IT ENACTED BY THE PEOPLE OF THE STATE OF WASHINGTON:

INTENT

NEW SECTION. **Sec. 1.** Over the past twenty years, the taxpayers have been required to pay increasing taxes and fees to the state, hampering economic growth and limiting opportunities for the citizens of Washington.

The people declare and establish that the state needs to exercise fiscal restraint by either reducing tax burdens or limiting tax increases to only those considered necessary by more than a bare majority of legislators.

Since 1993, the voters have repeatedly passed initiatives requiring two-thirds legislative approval or voter approval to raise taxes and majority legislative approval for fee increases. However, the people have not been allowed to vote on a constitutional amendment requiring these protections even though the people have approved them on numerous occasions.

This measure provides a reduction in the burden of state taxes by reducing the sales tax, enabling the citizens to keep more of their own money to pay for increases in other state taxes and fees due to the lack of a constitutional amendment protecting them, unless

the legislature refers to the ballot for a vote a constitutional amendment requiring two-thirds legislative approval or voter approval to raise taxes and majority legislative approval for fee increases. The people want to ensure that tax and fee increases are consistently a last resort.

REDUCE THE SALES TAX UNLESS...

Sec. 2. RCW 82.08.020 (Tax imposed--Retail sales--Retail car rental) and 2014 c 140 s 12 are each amended to read as follows:

(1) There is levied and collected a tax equal to ~~((six))~~ five and five-tenths percent of the selling price on each retail sale in this state of:

(a) Tangible personal property, unless the sale is specifically excluded from the RCW 82.04.050 definition of retail sale;

(b) Digital goods, digital codes, and digital automated services, if the sale is included within the RCW 82.04.050 definition of retail sale;

(c) Services, other than digital automated services, included within the RCW 82.04.050 definition of retail sale;

(d) Extended warranties to consumers; and

(e) Anything else, the sale of which is included within the RCW 82.04.050 definition of retail sale.

(2) There is levied and collected an additional tax on each retail car rental, regardless of whether the vehicle is licensed in this state, equal to five and nine-tenths percent of the selling price. The revenue collected under this subsection must be deposited in the multimodal transportation account created in RCW 47.66.070.

(3) Beginning July 1, 2003, there is levied and collected an additional tax of three-tenths of one percent of the selling price on each retail sale of a motor vehicle in this state, other than retail car rentals taxed under subsection (2) of this section. The revenue collected under this subsection must be deposited in the multimodal transportation account created in RCW 47.66.070.

(4) For purposes of subsection (3) of this section, "motor vehicle" has the meaning provided in RCW 46.04.320, but does not include:

(a) Farm tractors or farm vehicles as defined in RCW 46.04.180 and 46.04.181, unless the farm tractor or farm vehicle is for use in the production of marijuana;

(b) Off-road vehicles as defined in RCW 46.04.365;

(c) Nonhighway vehicles as defined in RCW 46.09.310; and

(d) Snowmobiles as defined in RCW 46.04.546.

(5) Beginning on December 8, 2005, 0.16 percent of the taxes collected under subsection (1) of this section must be dedicated to funding comprehensive performance audits required under RCW 43.09.470. The revenue identified in this subsection must be deposited in the performance audits of government account created in RCW 43.09.475.

(6) The taxes imposed under this chapter apply to successive retail sales of the same property.

(7) The rates provided in this section apply to taxes imposed under chapter 82.12 RCW as provided in RCW 82.12.020.

...UNLESS THE LEGISLATURE REFERS TO THE BALLOT FOR A VOTE A CONSTITUTIONAL AMENDMENT REQUIRING TWO-THIRDS LEGISLATIVE APPROVAL OR VOTER APPROVAL TO RAISE TAXES AND MAJORITY LEGISLATIVE APPROVAL FOR FEE INCREASES

NEW SECTION. Sec. 3. (1) Section 2 of this act takes effect April 15, 2016, unless the contingency in subsection (2) of this section occurs.

(2) If the legislature, prior to April 15, 2016, refers to the ballot for a vote a constitutional amendment requiring two-thirds legislative approval or voter approval to raise taxes as defined by voter-approved Initiatives 960, 1053, and 1185 and section 6 of this act and majority legislative approval for fee increases as required by voter-approved Initiatives 960, 1053, and 1185 and codified in RCW 43.135.055 and further defined by subsection (a) of this section, section 2 of this act expires on April 14, 2016.

(a) "Majority legislative approval for fee increases" means only the legislature may set a fee increase's amount and must list it in a bill so it can be subject to the ten-year cost projection and other accountability procedures required by RCW 43.135.031.

STATUTORY REFERENCE UPDATES

Sec. 4. RCW 43.135.031 (Bills raising taxes or fees — Cost analysis — Press release — Notice of hearings — Updated analyses) and 2013 c 1 s 5 are each amended to read as follows:

For any bill containing more than one revenue source, a ten-year cost projection for each revenue source will be included along with the bill's total ten-year cost projection. The press release shall include the names of the legislators, and their contact information, who are sponsors and cosponsors of the bill so they can provide information to, and answer questions from, the public.

(2) Any time any legislative committee schedules a public hearing on a bill that raises taxes as defined by ~~((RCW 43.135.034))~~ section 6 of this act or increases fees, the office of financial management must promptly and without delay report the results of its most up-to-date analysis of the bill required by subsection (1) of this section and the date, time, and location of the hearing by public press release via e-mail to each member of the house of representatives, each member of the senate, the news media, and the public, and must post and maintain these releases on its web site. For any bill containing more than one revenue source, a ten-year cost projection for each revenue source will be included along with the bill's total ten-year cost projection. The press release shall include the names of the legislators, and their contact information, and how they voted on the bill so they can provide information to, and answer questions from, the public.

(4) For the purposes of this section, “names of legislators, and their contact information” includes each legislator’s position (senator or representative), first name, last name, party affiliation (for example, Democrat or Republican), city or town they live in, office phone number, and office e-mail address.

(b) If legislative action raising taxes enacted after July 1, 2011, involves more than one revenue source, each tax being increased shall be subject to a separate measure for an advisory vote of the people under the requirements of this chapter.

(2) No later than the first of August, the attorney general will send written notice to the secretary of state of any tax increase that is subject to an advisory vote of the people, under the provisions and exceptions provided by this chapter. Within five days of receiving such written notice from the attorney general, the secretary of state will assign a serial number for a measure for an advisory vote of the people and transmit one copy of the measure bearing its serial number to the attorney general as required by RCW 29A.72.040, for any tax increase identified by the attorney general as needing an advisory vote of the people for that year’s general election ballot. Initiative Measure No. 1401

AN ACT Relating to the trafficking of animal species threatened with extinction; amending RCW 77.15.085, 77.15.100, and 77.15.425; reenacting and amending RCW 77.08.010; adding a new section to chapter 77.15 RCW; creating a new section; and prescribing penalties.

BE IT ENACTED BY THE PEOPLE OF THE STATE OF WASHINGTON:

NEW SECTION. Sec. 1. There is broad consensus that the trafficking of animals threatened with extinction continues to grow at an alarming pace, threatening an increasing variety of animal species including elephants, rhinoceroses, tigers, lions, leopards, cheetahs, pangolins, marine turtles, sharks, and rays, among others. These species are threatened with extinction in large part due to the trafficking of their parts and products. The national strategy for combating wildlife trafficking, released in February 2014, recognized the important role that states have in protecting species that are subject to illegal wildlife trade. Federal law regulates the transfer or importation of parts or products made from endangered animal species, but due to the increasing demand for these products around the world, state authority needs to be expanded to appropriately regulate these markets on a local level.

The most effective way to discourage illegal trafficking in animal species threatened with extinction is to eliminate markets and profits. The people find that it is in the public interest to protect animal species threatened with extinction by prohibiting within the state of Washington, with certain limited exceptions, the sale, offer for sale, purchase, trade, barter for, and distribution of any part or product of any species of elephant, rhinoceros, tiger, lion, leopard, cheetah, pangolin, marine turtle, shark, or ray identified as threatened with extinction by specified international conservation organizations. These animals represent some of the most trafficked species threatened with extinction according to illegal wildlife product seizure data gathered by the world wildlife fund-TRAFFIC, international union for conservation of nature, and other international conservation organizations.

The department may accept money or personal property from persons under conditions requiring the property or money to be used consistent with the intent of expenditures from the fish and wildlife enforcement reward account. Expenditures from the account may be used only for investigation and prosecution of fish and wildlife offenses, to provide rewards to persons informing the department

about violations of this title and rules adopted under this title, to offset department-approved costs incurred to administer the hunter education deferral program and the master hunter permit program, and for other valid enforcement uses as determined by the commission. Only the director or the director's designee may authorize expenditures from the account. The account is subject to allotment procedures under chapter 43.88 RCW, but an appropriation is not required for expenditures.
